

## **Cynergy3 is delighted to be sponsoring Elefant Racing Bayreuth**

Cynergy3 is once again delighted to be sponsoring Elefant Racing Bayreuth. We look forward to continuing to provide our outstanding product range of High Voltage Relays through 2019.

Further information:

Elefant Racing is the Formula Student Team of the University of Bayreuth. The aim of the association and the Formula Student in general is to support the education of students of engineering, economics, natural and media sciences.

Our project enables students to apply their theoretical knowledge in practice, conception, financing, marketing and building a single-seater race car. Each season a completely new vehicle is developed with which we compete against the teams of other universities worldwide in the competitions.
